

## Dear prayer friends in Europe,

***'I permitted Myself to be sought by those who did not ask for Me: I permitted Myself to be found by those who did not seek Me. I said, 'Here am I, here am I' to a nation which did not call on my name.'*** Isaiah 65:1

This word is finding fulfilment in our days, as millions of Muslim refugees and migrants have been pouring into Europe over the last 24 years. A vast number of them, while on their journey or on arrival on European soil, are met with a supernatural encounter with Jesus himself, either in a dream or vision, and come to the Lord effortlessly. What is reported merely as a humanitarian crisis is at the same time a spiritual Exodus! It is the hour of Islam, God is raiding it and its principality is reacting!

## An Exodus of our times...

The refugee crisis started in the mid 90s and is the result of the breakup of the Soviet block and Yugoslavia, and of wars by Western powers following 9/11 in Afghanistan, Iraq and Syria. It is the biggest continual migratory movement of populations recorded. They are almost exclusively Muslim populations, who are being added to the European-born Muslim populations and are challenging Europe's established securities.

There are 26.6 million asylum seekers in the EU and 84 million forcefully-displaced people in the world. Yet Heaven keeps its own records. For regardless of politics and policies, the Lord kept open for over 24 years this avenue that brings refugees into Europe, via Greece, visiting them and saving them in unpredictable, supernatural, miraculous ways in massive numbers! It has been our privilege to witness it. The flow has not diminished and neither have God's interventions.

Prompted to search for Light, they leave behind darkness of centuries and arrive destitute of belongings and hope with their life in their hands to continual 'refused entries'. The statement recorded on His arrival, 'there is no room', is today's definition of the refugee. Sometimes 17,000 people can be crammed into a space for 3000, waiting for months to be processed. Yet even in such places, Covid was not allowed to touch and for countless it is the place of their second birth. Hundreds of Farsi-speaking fellowships have sprung up all over Europe. This crisis is another grit that forms new pearls for the Kingdom and there is plenty more space in the Father's house.

It is also worth noting the spiritual opposition that developed parallel to this spiritual Exodus! The appearance of the Taliban in the 90s, of Erdogan in 1994-98, of Bin Laden's Al Qaida in 2000, and ISIS attempting a worldwide caliphate in 2014, all a reaction to God's preceding action!

Why did the Lord allow Europe to pour into Asia in years past and now allows Asian people to pour into Europe, creating financial, social, and religious upheaval?

Why do His spectacular visitations happen mostly on European ground and not while still in their countries?

Why in spite of continual migration policies does He allow them to be scattered into Europe for 24 years?

Will this new group, so open to the Gospel, evangelise the radical and unreached Muslim groups who were born and raised in Europe?

Will their first hand supernatural experience of the Lord bring to jealousy our Western church?

What are God's immigration policies?

Facts can be meaningless without the interpretation of Heaven.

## Let's Pray

- Pray that, nations, governments and legislators will be given supernatural wisdom to deal with this complicated phenomenon and even perceive something of the spiritual dimension
- Pray that this new flock from other pastures will continue to grow before Him from newborns into sonship, and into an army through which God will bless Europe
- Pray that their faith will overtake ours and that they will be anointed with boldness to evangelise the existing Muslim populations of Europe, and that God will fulfil unhindered all He had in mind in this Exodus.

## Hungarian Elections Update:-

Following the parliamentary elections of April 3rd 2022, Mr Orban and the Fidesz Party have gained an unprecedented fourth term in government, unique in western democracies. Out of the 199 seats, Fidesz won 135, while the main opposition only won 57. Despite winning all but two districts of the capital, Budapest, the opposition lost almost every other poll district in the country, which means they face a very difficult task in offering an effective counter balance which is needed for a healthy democracy. We need to pray for wisdom, honesty, and compassion for all the political representatives of the nation of Hungary.

## Additional Prayer Points:-

1. Let us pray for unity amongst European leaders as they seek ways together to reduce or eliminate their dependency on Russian oil and gas.
2. Pray that the recent attacks on Transnistria would not escalate and become a threat to Moldova as a whole.
